TIME TO RENEW

If you have not already done so, it is time to renew your subscription to “Cultivating Cumberland”.

This will be your last issue if we do not receive a renewal by February 20th. The March issue will go out to the updated mailing list only.

If you are not already receiving our newsletter via email, please consider doing so. You will receive all the same information, many times in color. If you would like to try it by email, just call our office and we will be glad to set that up for you. You can always go back to receiving it through the mail.

Renewal is easy and can be accomplished using any one of the following methods:
- Call Tammy at the Extension Office 856-825-2800 x1
- Email: tammyco@co.cumberland.nj.us
- Fax the renewal form (included in last months newsletter) back at 856-451-4206
- Return the renewal form by mail

Don’t miss out on all the up-to-date information. Be sure to renew your subscription to “Cultivating Cumberland” by February 20th. If you have any questions, please feel free to contact Tammy at the Extension Office for assistance.
Food Safety can be Daunting for Producers

Safe food is grown on safe farms. In addition to simply meeting government standards, producers must continue to inspire consumer confidence through their practices. Pathogen-free products are not only great for business, but they keep consumers safe.

A free web platform will help farmers create customized food safety plans, streamlining the process to achieving Good Agricultural Practices certification. Developed with input from the USDA, trade groups and extension specialists, the tool targets small- to mid-sized farmers.

The easy-to-use online platform (http://www.onfarmfoodsafety.org) was developed with funding from USDA's Risk Management Agency (RMA). Large buyers, which usually require GAP food safety certification, including, Compass Group, SYSCO, and Chipotle Mexican Grill supported the project financially and with technical assistance.

Agricultural Management Practice (AMP)
On-Farm Direct Marketing Facilities, Activities and Events

As you know, AMPs are an important component of the Right to Farm (RTF) Program because they establish the generally accepted practices that commercial farms must comply with to be eligible for RTF protection. In the absence of AMPs, RTF cases may be subject to delays, uncertainty about what is eligible for protection and inconsistent treatment across the state.

Due to an increasing number of RTF cases, questions and issues related to farm markets and agritourism, the agricultural community has urged the SADC to develop AMPs for these areas.

As a result of regular meetings over the last year, it was recognized that in order for the AMP to afford meaningful RTF protection, it must go beyond farm markets themselves and include the various agriculture-related educational and farm-based recreational activities and events commonly associated with farm markets. As a result, a draft AMP was compiled that pulls all of these topics under one, comprehensive title of “On Farm Direct Marketing”, which addresses the facilities, activities and events with common farm market operations.

Please visit: www.nj.gov/agriculture/sadc/news/hottopics to review the AMP draft. Send your written comments in by April 15, 2012 to: SADC, PO Box 330, Trenton, NJ 08625 or email your comments to: sadc@ag.state.nj.us.

If you have additional questions, please contact David Kimmel, Agricultural Resource Specialist at 609-984-2504.
The online training program for Professional Fertilizer Applicator Certification and Training (ProFACT) launched January 17, 2012. Professional fertilizer applicators seeking to be certified will be able to register with the program and access the training materials as of that date. The online certification exam will be available no later than January 30th. You can also view a brief description of the program on the home page at: profact.rutgers.edu

2012 Central Jersey Turf & Ornamental Institute

**DATE:** Thursday, March 8, 2012  
**Location:** Battleground Country Club  
Millhurst Road  
Manalapan, NJ  
**Fee:** $60.00 per person (includes lunch)  
**Time:** 8:30 a.m. - 3:10 p.m.  
**Registration Deadline:** Thursday, March 1st  
**Pesticide Credits:** 4 units each for 1A, 2, 3A, 3B, 6B, 8C, 13 and PP2  
2 units for CORE  

For more information call the Middlesex County Extension Office 732-398-5262.

2012 Community Garden Conference

**DATE:** March 3, 2012  
**TIME:** 9:00 a.m. to 4:30 p.m.  
**LOCATION:** The Frelinghuysen Arboretum  
353 East Hanover Avenue  
Morris Township, NJ 07962  
**COST:** $50 by 2/4; $60 after  

For additional information or to register visit: www.arboretumfriends.org or call 973-326-7603
DEADLINE APPROACHING
NJ’s Animal Waste Management Rule
Are you in compliance?

The New Jersey Department of Agriculture adopted regulations in March 2009 that require all livestock farm owners to responsibly manage the manure generated on their operations — including those with horses, dairy cows, cattle, swine, goats, sheep, poultry and all other domesticated species defined as livestock. All New Jersey farmers with livestock are required to be in compliance with the regulations are by March 16, 2012.

The Animal Waste Management regulations require all farms with any livestock to comply with the following General Requirements of the rule:

- Agricultural animal operations shall not allow animals in confined areas to have uncontrolled access to waters of the state.
- Manure storage areas shall be located at least 100 linear feet from waters of the state.
- Land application of animal waste shall be performed in accordance with the principles of the NJDA Best Management Practices (BMP) Manual.
- Dead animals and related animal waste originating from a reportable contagious disease or an act of bio-terrorism shall not be disposed of without first contacting the State Veterinarian.
- Any person entering a farm to conduct official business related to these rules shall follow bio-security protocols.

In addition to the General Requirements listed above, all livestock operations with 8 to 299 “Animal Units” (one Animal Unit = 1,000 pounds) are required to implement an Animal Waste Management Plan by March 16, 2012. This plan must be in accordance with the New Jersey Department of Agriculture manual (On Farm Strategies to Protect Water Quality). Exact requirements will vary with size and density of operation. Check with one of the Extension offices listed below for details.

The Department of Agriculture will investigate alleged violations of the rules and take appropriate action, which may include fines of up to $1,000 per day for each violation as determined. The Department may allow the owner or operator up to 60 days to address or correct the non-compliance before imposing penalties.

According to New Jersey Statute (N.J.S.A. 4:1C) farmers must comply with all relevant federal and state statutes and regulations in order to maintain “Right to Farm Protection.” New Jersey’s Right to Farm Act protects responsible commercial farmers from public and private nuisance actions and unduly restrictive municipal regulations. Failure to comply with the Animal Waste Management Rule may result in loss of these protections.

Rutgers Cooperative Extension has provided training for livestock farmers since the initiation of the rule back in March of 2009. Extension offices will be available for assistance with compliance questions and will schedule individual meetings as needed.

Please contact the following Extension offices or visit http://njaes.rutgers.edu/animal-waste-management/default.asp for additional information.

NJ Junior Breeder’s Livestock Symposium
Lynn Richmond, NJ Department of Agriculture

Event Will Educate Adults and Youth About Animal Agriculture

An educational symposium for adults and children will be held on Saturday, March 31st at Rutgers University’s School of Environmental and Biological Sciences in New Brunswick. A wide variety of valuable and interesting agricultural topics will be discussed and there will be many opportunities for hands-on experience.

Information sessions on small ruminants, cattle, horses and poultry will be held. Hands on sessions will include: building a foldable milking stand that doubles as a wheelbarrow for tack; dairy clip-off; processing and marketing poultry, turkeys and game birds; farm safety scavenger hunt; and small ruminant skills lab.

The cost for the daylong event is $12 and includes lunch. A separate morning session on rabbits only will be held at a lower cost of $5. The deadline to register is March 15th.

The New Jersey Junior Breeders Livestock Symposium is sponsored by the New Jersey Department of Agriculture (NJDA), New Jersey Junior Breeder Program, Rutgers Cooperative Extension and the Department of 4-H Youth Development. It also is sponsored in part by Farm Credit/Northeast Ag Enhancement and Hart Agency.

The New Jersey Junior Breeders' Fund, a low-interest loan program, offers agricultural education/FFA students and 4-H members the opportunity to advance the breeding of purebred livestock and the production quality of livestock. Loan applicants must be New Jersey residents, have adequate facilities for livestock and be either 4-H members or FFA/agricultural education students.

The registration form can be accessed online at www.nj.gov/agriculture/news/events/2012jrbreederregform.doc.

For more information, call 609-984-4389 or e-mail lynn.mathews@ag.state.nj.us or debra.moscatiello@ag.state.nj.us.
Turfgrass Fertilization Restrictions in Effect
Salvatore Mangiafico, Environmental and Resource Management Agent, Salem and Cumberland Counties

In 2011, New Jersey enacted legislation to restrict the application of nitrogen and phosphorus fertilizer to turfgrass areas. The aim of this legislation is to help reduce pollution fertilizer to lakes, bays, and groundwater from excessive or improper application of fertilizer.

As of January 2012, many of the provisions of this new law are in effect. The law applies both to homeowners and to professional applicators. Under this law, anyone who applies fertilizer to turfgrass as part of their job duties is considered a professional applicator.

Regulations Affecting Professional Applicators:

Anyone who applies fertilizer to turfgrass for work must be Certified or Trained to do so under this law. Applicators will soon be able to complete the exam for certification online. For more information about the law and about becoming a Certified Applicator or Trained Applicator, visit http://profact.rutgers.edu/.

While golf courses are exempted from many of the restrictions for fertilizer application, employees who apply fertilizer to golf courses must still be Certified or Trained.

After December 1, commercial applicators cannot apply nitrogen or phosphorus fertilizers to turfgrass until March 1.

Other materials such as potassium and lime are legal to apply during this period.

Other restrictions include prohibiting fertilizer application to frozen ground, on impervious surfaces such as driveways or sidewalks, and within 25 feet of a waterbody (with some exceptions).

The law also restricts the amount of nitrogen fertilizer that can be applied during each application and for the year, as well as requiring a soil test within three years to be able to apply phosphorus fertilizer to established lawns. There may be other restrictions in the law that affect your fertilizer application practices.

Regulations Affecting Homeowners:

After November 15, residents cannot apply nitrogen or phosphorus fertilizers to lawns until March 1.

Other materials such as potassium and lime are legal to apply during this period.

Other restrictions include prohibiting fertilizer application to frozen ground, on impervious surfaces such as driveways and sidewalks, and within 25 feet of a waterbody in most cases.

The law also restricts the amount of nitrogen fertilizer that can be applied during each application and for the year. It requires a soil test within three years to be able to apply phosphorus fertilizer to established lawns.

Visit: http://snyderfarm.rutgers.edu/fertilizerlawFAQ.html for more information on this law. There may be other restrictions in the law that affect you.
NJ GROWERS RECYCLE RECORD AMOUNT OF FILM IN 2011

Lynn Richmond, NJDA

New Jersey Secretary of Agriculture Douglas H. Fisher today announced the Department of Agriculture nursery and greenhouse plastic film recycling program saw a 53 percent increase in the amount of materials recycled last year, making 2011 the most successful year since the program began in 1997.

More than one million pounds of plastic film was recycled instead of being dumped into landfills, saving New Jersey farmers thousands of dollars in landfill tipping fees, keeping these items out of the solid waste stream, increasing the availability of landfill space and providing a source for manufacturers to make plastic products using recycled content.

“We are proud to have the most successful nursery and greenhouse film recycling program in the nation,” said Secretary Fisher. “We encourage all growers who use agricultural plastics to participate in this valuable and money-saving program.”

The Department’s year-round film recycling program is entering its 15th year. The film being recycled is used to cover greenhouses for environmental control and hoop houses for over-wintering of nursery material.

Since the program was initiated in 1997, growers in New Jersey have recycled more than 8 million pounds of used film and are expected to surpass the 9 million pound mark this year. In 2011, the amount recycled was 1,111,760 pounds – the largest volume of nursery and greenhouse film recycled in a single year since the program was started.

Two regional sites accept film year-round -- the Burlington County Occupational Training Center in Mt. Holly and the Cumberland County Solid Waste Complex in Deerfield. Out-of-state growers can take their used film to the Mt. Holly site, whereas the Cumberland site only will accept New Jersey growers’ film. For details about the locations, hours, fees, and other vendors who accept film, visit the Department’s website at www.nj.gov/agriculture/divisions/md/prog/filmsites.html.

Growers who recycled through the two regional centers saved almost $25,000 in tipping fees. Larger growers who marketed their film to brokers and plastic recycling facilities, saved more than $21,000 and were also rewarded up to $54,000 for their recycling efforts.

Both white and clear nursery film and clear multi-season (two-year, three-year, and four-year) greenhouse covers can be recycled. Film must be free of lathing, staples and saran. Loads containing other agricultural plastics, such as bags, mulch film, shrink film, stretch film, drip irrigation or ground cover film, will be rejected at the collection sites.

Vehicles used to transport the greenhouse and nursery film intra or interstate are not required to be licensed by the New Jersey Department of Environmental Protection as long as the used film is transported directly to one of the two collection sites participating in New Jersey’s nursery and greenhouse film recycling program.

Larger growers who produce sizeable amounts of film also have the option of collecting, preparing and selling the nursery and greenhouse film on the open market. However, price and convenience has led many farm operations to use one of the two regional collection sites to drop off their film.

In addition, the Department also offers year-round mulch film and drip irrigation tape recycling, seasonal plastic pesticide container recycling and information on nursery pots, plastic flats, trays, and cell packs recycling.

To find out more about these recycling programs, contact Karen Kritz at 609-984-2506 or Karen.kritz@ag.state.nj.us or visit the New Jersey Department of Agriculture Agricultural Recycling webpage at: www.nj.gov/agriculture/divisions/md/prog/recycling.html.
Calendar of Important Events

Indicates the newly added event since last calendar

February 2012

February 6
Basic Pesticide Applicator Training for Core Certification, Extension Center Gloucester County, 1200 N. Delsea Dr., Clayton, NJ; 9 am—noon, $50; 6 core recertification credits. For info call 856-307-6450 x1 or email: cummings@njaes.rutgers.edu.

February 7
Category 3A-Ornamental Pest Control Training for DEP Exams, Extension Center Gloucester County, 1200 N. Delsea Dr., Clayton, NJ; 9 am-3 pm, $100; 12 recertification credits. For info call 856-307-6450 x1 or email: cummings@njaes.rutgers.edu.

February 7
Soil & Fertilizer, Bill Bamka, Ag Agent Burlington County, RCE of Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20; 9am-noon. For more info or to register call 856-451-2800 x1.

February 7-8
Beds and Borders Seminar, Rutgers Office of Continuing Professional Education, 102 Ryders Lane, New Brunswick, NJ, $425; 9 am—3:30 pm. Pesticide credits: 3-3A, 6B and PP2. For more info call 732-932-9271 or visit: www.cpe.rutgers.edu

February 9
Category 3B-Turf Pest Control Training for DEP Exams, Extension Center Gloucester County, 1200 N. Delsea Dr., Clayton, NJ; 9 am-3 pm; $100, 12 recertification credits. For info call 856-307-6450 x1 or email: cummings@njaes.rutgers.edu.

February 9
Producing and Marketing 100 Bushel Soybeans, Rutgers Ecocomplex, 9am-3pm. Sponsored by the NJ Soybean Board. For more info email: hevans@hg4u.com

February 10
Bacterial Disease Management for Vegetables and Update on the Food Modernization Act, RCE Gloucester County, 1200 N. Delsea Dr., Clayton, NJ. $10. Please re-register and indicate if bringing seed for treatment. For more info or to register call 856-307-6450 x1.

February 13
Managing Turfgrass Insects, Rutgers Cont. Prof. Education, 102 Ryders Lane, New Brunswick, NJ, $225. Pesticide credits: 10 each for 3B, 6B, 8C & PP2. For more info call 732-932-9271 or visit: www.cpe.rutgers.edu

February 14
Tree Fruit & Grapes, Jerry Frecon, Ag. Agent Gloucester County, RCE of Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20; pesticide credits: 6 each for 13, 1A and PP2; 9am-noon. For more info or to register call 856-451-2800 x1.
February 14-15
**Athletic Field Construction and Maintenance**, Rutgers Cont. Prof. Education, 102 Ryders Lane, New Brunswick, NJ; $445. Pesticide credits: 2-Cat. 13 and 10-3B. For more info call 732-932-9271 or visit: www.cpe.rutgers.edu

February 16
**South Jersey Rain Garden Training**, Camden County Municipal Utilities Authority, 1645 Ferry Ave., Camden, NJ $25.00 For more info call Amy Boyajian 732-932-9800 x6164 or visit: www.water.rutgers.edu

February 21
**Basic Entomology**, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20; pesticide credits: 6 Cat. 13 and 3 each for 7A and 7B; 9am-noon. For more info or to register call 856-451-2800 x1.

February 21
**Reducing Pesticide Inputs and Exploring Organic Options for Sports Turf**, Rutgers Cont. Prof. Education, $175 by 2/7; $195 after. Pesticide credits: 5 Cat. 13, 11 each for 3B, 6B, 8C & PP2. For more info call 732-932-9271 or visit: www.cpe.rutgers.edu

February 22
**Food Safety & Audit Workshop**, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20 includes lunch; 9:00 a.m.-3:00 p.m. For more info or to register call Tammy 856-451-2800 x1 or email: commander@njaes.rutgers.edu.

February 22
**Baseball and Softball Skin Surface Selection and Management**, Rutgers Cont. Prof. Education, 102 Ryders Lane, New Brunswick, NJ; $175 by 2/8; $195 after. Pesticide credits: 4 each for Cat. 13 & 3B. For more info call 732-932-9271 or visit: www.cpe.rutgers.edu

February 23
**Food Safety & Audit Workshop**, RCE Middlesex County, 42 Riva Ave., North Brunswick, NJ. For more info or to register call 732-398-5262.

February 23-25
**MOSES Organic Farming Conference**, La Crosse, Wis. For more info contact the Midwest Organic and Sustainable Education Service at 715-778-5775 or visit: www.mosesorganic.org

February 23-25
**Minnesota Grape Growers Association Annual Grape & Wine Conference**, St. Paul Crowne Plaza, St. Paul, Minn. For more info visit: www.mngrapegrowers.com

February 27
**Sustainable Landscape Design**, Rutgers Continuing Professional Education, 201 Ryders Lane, New Brunswick, NJ, 9am-3:30pm, $195 by 2/13 or $225 after. Pesticide Credits: 3-3A, 6B and PP2. For more info call 732-932-9271 or visit: www.cpe.rutgers.edu.

February 28
**Home Vegetable Gardening & Weed Management**, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20; pesticide credits: 6 each for Cat. 13, 3A and PP2; 9am-noon. For more info or to register call 856-451-2800 x1.
March 2012

March 3
2012 Community Garden Conference, The Frelinghuysen Arboretum, 353 E. Hanover Ave., Morris Township, NJ. $50 by 2/4; $60 after. For more info or to register call 973-326-7603 or visit: www.arboretumfriends.org.

March 4-6
California Small Farm Conference, Hyatt Regency, Valencia, Calif. For more info call 831-659-0436, email: smallfarmconference@gmail.com or visit: www.californiafarmconference.com

March 6
Turf Culture, RCE of Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20; 9am-noon. For more info or to register call 856-451-2800 x1.

March 7-8
18th Annual Conference & Eco-Marketplace, The Ecological Landscaping Association, MassMutual Center, 1277 Main Street, Springfield MA. For more info call 617-436-5838 or visit: www.ecolandscaping.org

March 7-8
Managing Turfgrass and Landscape Weeds, Rutgers Cont. Prof. Education, 102 Ryders Lane, New Brunswick, NJ; $395 by 2/22; $445 after. Pesticide Credits: 2-Core, 8 each for Cat. 2 & 3A and 16 each for Cat. 3B, 6B, 8C and PP2. For more info call 732-932-9271 or visit: www.cpe.rutgers.edu

March 8-10
NYS Farmers Market Manager Training Program, Keeping the Momentum Going Marriott Courtyard, Saratoga. For more info call Diane Eggert at 315-637-4690, email: deggert@nyfarmersmarket.com or visit: www.nyfarmersmarket.com

March 9
Turfgrass Disease Management, Rutgers Cont. Prof. Education, 201 Ryders Lane, New Brunswick, NJ; $195 by 2/24; $225 after. Pesticide credits: 10 each for Cats. 3B, 6B, 8C & PP2. For more info call 732-932-9271 or visit: www.cpe.rutgers.edu

March 13
Turf Pest Problems, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20; pesticide credits: 6 each for Cat. 13, 3B and PP2; 9am-noon. For more info or to register call 856-451-2800 x1.

March 20
Food Safety & Audit Workshop, Marucci Center for Blueberry & Cranberry Research & Extension, 125A Lake Oswego Rd., Chatsworth, NJ. For more info or to register call 609-726-1590.

March 20
Garden Animals: Friend & Foes, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20; 9am-noon. For more info or to register call 856-451-2800 x1.

March 22
South Jersey Rain Garden Training, Camden County Municipal Utilities Authority, 1645 Ferry Ave., Camden, NJ. $25.00 For more info call Amy Boyajian 732-932-9800 x6164 or visit: www.water.rutgers.edu
March 23
Roadside and Right-of-Way Vegetation Management, Rutgers Cont. Prof. Education, 102 Ryders Lane, New Brunswick, NJ; $195 by 3/9; $225 after. For more info call 732-932-9271 or visit: www.cpe.rutgers.edu

March 24
36th Annual Home Gardeners School, Rutgers Continuing Professional Education, 102 Ryders Lane, New Brunswick, NJ, 9am-4pm, $55 by 3/10; $69 after, box lunches available. For more info and a list of classes call 732-932-9271 or visit: www.cpe.rutgers.edu.

March 27
Pruning, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20 9am-noon. For more info or to register call 856-451-2800 x1.

March 28
4 Hour Basic Pesticide Review, Wayne Knerr, Helena Chemical, RCE of Cumberland County, 291 Morton Avenue, Millville, NJ; pesticide credits anticipated. 8:30 a.m.—12:30 p.m. For more info or to register call 856-451-2800 x1.

April 2012

April 3
Small Fruit, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20 9am-noon. For more info or to register call 856-451-2800 x1.

April 10
Woody Ornamentals, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20 9am-noon. For more info or to register call 856-451-2800 x1.

April 17
Plant Diseases, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20 9am-noon. Pesticide credits: 6 each for Cats. 13, 3A & PP2. For more info or to register call 856-451-2800 x1.

April 24
Pesticides: What you Need to Know, RCE Cumberland County, 291 Morton Ave., Rosenhayn, NJ; $20, 9am-noon. Pesticide credits: 6 CORE. For more info or to register call 856-451-2800 x1.

April 24-25
PA Nutrition Education Network’s Annual Conference 2012, Sheraton Harrisburg-Hershey Hotel, Harrisburg, PA. For more info call 717-233-1791, email: pa_nen@phmc.org or visit: www.panen.org/annualmeeting

Public Notification and Non-discrimination Statement

Rutgers New Jersey Agricultural Experiment Station Cooperative Extension educational programs are offered to all without regard to race, religion, color, national origin, ancestry, age, sex, sexual orientation, gender identity and expression, disability, atypical hereditary cellular or blood trait, marital status, civil union status, domestic partnership status, military service, veteran status, and any other category protected by law. Rutgers Cooperative Extension encourages individuals with disabilities to participate in its programs and activities. If you need special accommodations, have questions about physical access, or require alternate means for program information, please contact your local Extension Office. Contact the State Extension Director's Office if you have concerns related to discrimination, 732-932-5000, ext. 584.

FUN FACTS: The USDA was created by President Lincoln in 1862. Its exact birthday is during the USAIN conference.
Organic Farming

Financial and technical assistance through the EQIP Organic Initiative to applicants who are:

- Certified organic producers (Applicants must provide NRCS with a copy of their Organic System Plan, and organic certifications must be maintained for the life of the contract.)
- Transitioning to organic production (Applicants must self-certify that they agree to develop and implement an Organic System Plan before the contract is approved.)
- Producers selling less than $5000 organic products annually

All organic initiative contracts have a payment limitation of $20,000 per federal fiscal year AND $80,000 per 6-year period.

Seasonal High Tunnels

The goal of the initiative is to assist producers to extent the growing season for high value crops in an environmentally safe manner.

- Payment for Seasonal High Tunnels is limited to 5% of one acre per farming operation (2178 square feet).
- Other practices included in a contract are limited to the extent required to address resource concerns related to the planned or existing seasonal high tunnels on the applicant’s eligible land.
- Practices include Conservation Crop Rotation, Cover Crop, Nutrient Management, Integrated Pest Management, Micro-Irrigation System, and practices to address erosion or drainage needs.

Energy Management

The EQIP On-Farm Energy Initiative enables the producer to identify ways to conserve energy on the farm through an Agricultural Energy Management Plan (AgEMP), also known as an on-farm energy audit; and by providing financial and technical assistance to help the producer implement various measures and practices recommended in an on-farm energy audit.

- Agricultural Energy Management Plans are also available for contracting.
Application & Enrollment

There will be three application periods for fiscal year 2012:

1. All eligible applications received by February 3, 2012 will be ranked and funded first.

2. All eligible applications received by March 30, 2012 will be funded next.

3. The final application period will close June 1, 2012; all eligible applications will be ranked by June 11, 2012.

It is the applicant’s responsibility to meet all person and land eligibility requirements by the application period deadline.

What's the Plant & Pest Advisory worth to your operation?
Here's what readers have to say:
(responses from Plant & Pest Advisory Reader Survey)

“This advisory with weekly IPM scouting has saved us thousands of dollars.”

“It often helps lick the problem on the onset, making a much more marketable product.”

“IPM practices have reduced pesticide costs 20 – 25%.”

“We use a lot more horticultural oils vs. higher costing insecticides.”

“Saving of time spent researching pest and application needed or not.”

“We're saving customer's plants from destruction thus saving them replacement costs and saving our reputation.”

“Through suggested timing of insect and fungus monitoring we are able to better manage our nursery.”

“Less spraying and timely spraying equals thousands of dollars saved.”

“Knowing what varieties to use and what varieties to stay away from.”

“Reduced usage by $3,000, increased crop production $8,000, reduced fertilizer input $1,000.”

“By getting timely information I knew early what to look for. When it's easier and cheaper to control – this could add up to over $100,000 in lower costs and crops saved.”

Program Schedule

10:00 AM - 9:30 AM
Registration

9:30 AM - 10:45 AM
Overview of Botanical Diseases and management Strategies

10:45 AM - 11:15 AM
Food Microbiology Update
Dr. Andy Wyman, Rutgers N.J. Agricultural Agent, Cumberland Co.

11:15 AM - 12:00 PM
Hot Water Seed Treatment Instruction
Dr. Wees, Rutgers N.J. Agricultural Agent, Cumberland Co.

12:00 PM - 2:30 PM
Hot Water Seed Treatment Practicum
Michelle Cassella, Rutgers N.J. Agricultural Agent, Gloucester Co.

2:30 PM - 3:00 PM
Pesticide Credits
Michelle Cassella, Rutgers N.J. Agricultural Agent, Gloucester Co.

3:00 PM - 4:00 PM
Growers can stay to do hot water seed treatment for tomato, pepper, eggplant

Non-personalized seed or mail
Michelle Cassella, N.J. Agricultural Agent, Gloucester Co.

If you have questions contact: RCE/CEBA

1200 N. Delee Dr. RUTGERS Cooperative Extension of Gloucester Co.

If you are bringing seed to hot water, you must call in order to get in.

Equipment to heat seed on the day of the program.

Seed can be used if nucleus treated seed can be done. First to register will be first to use.

Instructions on how to prepare your seeds for treatment, no pelletted or clay coated.

# of persons: $10.00 per person
